Precision High Speed Shaft Alignment

Have you ever wondered about alignment of the high-speed shaft in a wind turbine?

There are some interesting challenges involved - not the least of which is being 90m up in a 8m/s wind!

[Click here](#) to find out about what we have learned from our up-tower experiences.

Easy-Laser® E710

The future of laser shaft alignment is NOW!

Bluetooth®

2 YEAR WARRANTY

Alignment Supplies, Inc. is pleased to announce the release of the newest advancement in laser shaft alignment - the Easy-Laser® E710!

The new E710 offers advanced features like wireless operation, 3D color graphics, infinite battery life, live adjustment from any angle and combines them with the ease-of-use and industry-best pricing you expect from Easy-Laser®!

Software? It's still free! You can also save onto a USB flash drive or as a PDF in the system memory. As always, the Easy-Laser® unbeatable 2-year warranty makes the E710 the best alignment value available!
